

Christmas Bird Count Record Sheet

Count Name Lethbridge Date: December 19, 2021

Specific route or location: _____

Distance by vehicle 741.9 km. Distance on foot 186.5 km.

Time by vehicle 49.1 hr. Time on foot 81.9 hr. Time watching feeders 15.2 hr.

Precipitation _____ mm Wind direction N Wind speed: min 13 max 20 km/hr

Temperature: min -10 max -9 °C

Names of all participants: 82 participants counted 39 City of Lethbridge areas and 6 country areas during the day. 9 participants dedicated themselves to feeder counts. Feeder hours also include some time spent by participants watching feeders they found in their count areas while they were making their rounds.

Please record the number of each species of birds and mammals that you observed. The lists contain the names of species most likely to be seen. If a bird or mammal has not been identified down to the exact species then indicate it as, for example, "blackbird species" or "weasel species". Species seen during Count Week but not on count day (i.e. 3 days prior to and 3 days after) should be indicated with **CW**.
