

Christmas Bird Count Record Sheet

Count Name Lethbridge Date: December 19, 2020

Specific route or location: _____

Distance by vehicle 618.1 km. Distance on foot 252.6 km.

Time by vehicle 47.35 hr. Time on foot 107.55 hr. Time watching feeders 21.25 hr.

Precipitation _____ mm Wind direction WSW Wind speed: min 30 max 75 km/hr

Temperature: min 3 max 9 °C

Names of all participants: 84 covered 38 city areas and 6 country areas. 57 species were tallied on count day and 5 species were observed during count week.

Please record the number of each species of birds and mammals that you observed. The lists contain the names of species most likely to be seen. If a bird or mammal has not been identified down to the exact species then indicate it as, for example, "blackbird species" or "weasel species". Species seen during Count Week but not on count day (i.e. 3 days prior to and 3 days after) should be indicated with **CW**.
