

The Fun Stuff Happens Outside!

Nature Collage

Go outside and find several different objects.

Take the objects you have found & make a picture with them on the ground.

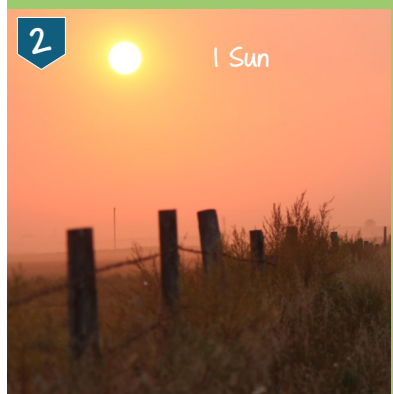

See if you can rearrange them to spell a word or make a pattern.

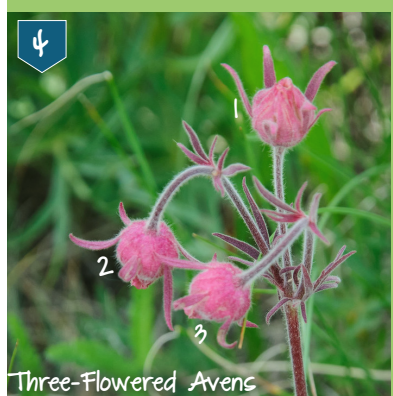

Leave your creation on display outside. Come back another day to see how it has changed!

Nature Counting Game

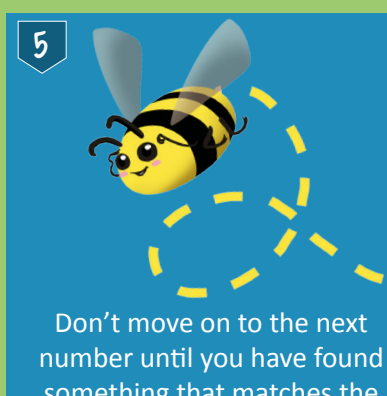

See if you can find something where there is only 1.

See if you can find something that always has 2.

Where can you find something in threes?

Don't move on to the next number until you have found something that matches the number you are working on. See how high you can count!

Start a Collection

Choose a container from your house that you can collect things in.

Go outside & pick up neat nature things that you find interesting. Make sure they are small!

Bring the items inside & display them in your container!

Do some research to figure out what the things you have collected are.

Colour Scavenger Hunt

Choose one item, that you have at home, that has different colors on it.

Go outside and count how many things you can find in nature that match the colors on your item.

See if you can find things to match all of the colors on your item!

How Many Can You Find?

Play is an integral part of healthy human development.

As a community we are dedicated to prioritizing play for all children & youth.
